

Interested in working in the health sciences/medical field? Are you unsure of whether it may be a perfect fit for you? We can help guide you to those sought answers you are in search of!

The Pre OT Group is committed to creating a support system for our members and anyone interested in Occupational Therapy or rehabilitation sciences. Our mission is grounded in the consensus belief of community leadership and involvement to attain experience and prepare for a career in the health sciences. We explore the history, philosophy, and current advancements in OT while trying to answer the question of what is an OT student. Our meetings allow our members to share their lived experiences while providing resources including information for internships and volunteer opportunities. Additionally, we have invited guest speakers who lecture on a myriad of opportunities, issues and growth within occupational therapy. If you would like to learn more or become a member, please send an email to preot@umn.edu or stop by any our meetings. All are welcome!
